Subject: Drafting Request - Amending Chapter 125

Aaron,

My message below was in follow up to our telephone conversation yesterday. In addition to existing law, we want to expand the number of licenses issued based on the value of new retail/commercial/manufacturing growth as some areas of the state are growing faster commercially without a coinciding growth in population. We have a restaurant in our district that would like to serve mixed drinks but is unable to get a qualifying license and it is unlikely the population will grow by 300 more people in order for the community to grant another license anytime in the near future. Adding mixed drinks to the menu, should attract new customers and increase local business/improve the local economy.

I'm not sure how to put this in legal format, but is it possible to amend 125.51(4)(4)(1e) to read something such as:

e. Add one license per each increase of 500 population to the population recorded under par. (bm) "*or commercial growth not less than an amount reflecting \$1,000,000 per 1,000 people in cities having a population of less than 50,000.*"

Ultimately, we would like to have permits issued based on population as it currently is or by new commercial growth. This might be easier to explain over the phone rather than what I have written above. If it is unclear to you, please feel free to call 266-7513. - Jolene

Jolene,

This doesn't make sense in the context of "Class B" quotas. Rather than "\$1,000,000", do you want a certain number of "Class B" licenses per 1,000 people in cities having a population of less than 50,000? If so, how many licenses per 1,000? Also, what about villages and towns with populations less than 50,000 - do you want those covered also? And do you care if the result is that cities under 50,000 population end up with more licenses than cities over 50,000 population in some circumstances?

Thanks. Aaron

Dear Aaron,

Senator Grothman would like to have a bill drafted similar to *Michigan*

Senate Bill 162. He would like to incorporate wording into Wisconsin Statutes, Chapter 125 to the effect of:

"Not less than an amount reflecting \$1,000,000 per 1,000 people in cities having a population of less than 50,000." - Michigan - Sec. 521A(4)(B)

We would like to receive this draft as soon as possible. Thanks so much!

Sincerely,

Jolene Churchill, Assistant
Senator Glenn Grothman
20th Senate District

11 unless Senate Bill No. 163

12 of the 93rd Legislature is enacted into law.

2005 BILL

Gen

1 AN ACT ...; relating to: municipal quotas for intoxicating liquor retail licenses.

Analysis by the Legislative Reference Bureau

Current law prohibits a person from selling alcohol beverages at retail unless the seller possesses a license or permit authorizing the sale. A "Class B" license authorizes the sale of intoxicating liquor at retail for consumption on the premises where sold and is issued for specific premises. Current law imposes a quota on the number of "Class B" licenses that a municipality may issue. The quota on the number of "Class B" licenses that a municipality may issue is generally determined by a formula based on the number of licenses previously issued by the municipality and the municipality's population.

This bill increases the quota for cities having a population of less than 50,000 under certain conditions. In these cities, the quota is increased by one license for each \$1,000,000 increase per 1,000 population in the city's commercial growth, as measured over the immediately preceding three calendar years.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

2 SECTION 1. 125.51 (4) (br) 1. em. of the statutes is created to read:

BILL**SECTION 1**

1 125.51 (4) (br) 1. em. In cities having a population of less than 50,000, add one
2 license for each \$1,000,000 increase per 1,000 population in the city's commercial
3 growth, as measured over the immediately preceding 3 calendar years.

4 **SECTION 2.** 125.51 (4) (br) 2. of the statutes is amended to read:

5 125.51 (4) (br) 2. Notwithstanding subd. 1., if the difference between the
6 number of licenses determined under par. (b) 1g. and under par. (bm) 1. is 3 or fewer,
7 the number of reserve "Class B" licenses authorized to be issued by that municipality
8 is the difference between the number of licenses determined under par. (b) 1g. and
9 under par. (bm) 1., plus one per each increase of 500 population to the population
10 recorded under par. (bm), plus, in cities having a population of less than 50,000, one
11 for each \$1,000,000 increase per 1,000 population in the city's commercial growth as
12 measured over the immediately preceding 3 calendar years, plus one if the
13 municipality had issued a license under s. 125.51 (4) (br) 2., 1999 stats., based on a
14 fraction of 500 population but only as long as the total number of licenses issued by
15 the municipality equals the maximum number of licenses authorized.

Jolene,

I can do something along these lines. By the way, the "/P1" draft won't apply to the village of sauukville - the instructions specified "city," which doesn't include a "village" (as discussed in a prior e-mail). Is it your intention that the draft apply to any municipality (city, village, town) with a population under 50,000?

Thanks. Aaron

Per our earlier conversation.

- 1 "correction year" based on preceding 3 calendar years (draft language - lines 10-12 of the Bill) - (Idea = one time catch-up year for a community that has experienced increased commercial growth but has not experienced general population growth.)
- Max (1) license per year (after the "correction year") based on the draft language linked to commercial growth.
- Municipality can only be eligible for one of the two options w/in a calendar year (after the "correction year") - (license based on population or commercial growth (greater of the two)).

Please e-mail me the revised draft bill.

Thank you.

Please review the attached draft carefully to ensure that it is consistent with your intent. I note that created s. 125.51 (4) (br) 1. g. provides a "correction year" corresponding to the first bullet of the instructions, and created s. 125.51 (4) (br) 1. h. provides for a maximum of one commercial growth-based license and precludes *i* eligibility for both population-based and commercial growth-based licenses, corresponding to the second and third bullets of the instructions.

Subject: Liquor quota bill - LRB-4928

Hi Jolene,

Just wanted to let you know that I received a call from Dawn at the village of Saukville, who advised that you had referred her to me. I think I was able to answer most of her questions. As I advised her, the bill would basically give the village a "bonus" license in the first year the bill goes into effect, as subd. 1. g. would allow an additional license and subd. 1. h. would allow a second additional license. Also, there is a certain "compounding" element in the bill that is rather favorable to smaller municipalities, as the municipality may add licenses based upon commercial growth while the population is building up to the next multiple of 500, then the next year add a license based upon population when the growth is not there. As directed, I drafted the bill so there is no double-counting for growth/population in the same year, but there is a sort of compounding if you look at it year over year.

Let me know if you have any questions or if the village has any follow up questions.
